Parties & Weddings, Karaoke and Party Fun Nights

Professional Service, Personal Consultation,

Tailored Entertainment

The Entertainment Experience have been entertaining locally in the Highlands now for over 10 years. Please don't think of us as just another disco! After experiencing our way of doing things, make up your own mind.

We like to think we are a bit different at The Entertainment Experience. You've been there - No idea what the DJ is saying (if anything), the music is painfully loud, he has sad little flashing lights lighting only the immediate area in front of him and his music choice..... well, not the best to say the least!

At the Entertainment Experience things are different.

We offer you Professional Sound Systems, Professional Lighting and Professional DJ's with character. We offer Personal Consultation, face to face or just spending a little more time with you on the phone finding out about your party, your guests, your requests and your venue.

We offer Tailored Entertainment, every party is different. Background music for a family re-union to a 'Bangin' 21st Birthday with games! Our DJ's pay particular attention to the party crowd, read the crowd and play music that your party will enjoy, music you want to hear, not only what the DJ wants to play.....and we all carry a huge selection to cater for all tastes.

We are flexible and offer to work with you on your special day to be sure everything goes smoothly.

The party is your party. Do you want the music turned down a bit, up a bit, bit of Rock and Roll? Let us know. We offer a professional service, and believe you won't find better.

One thing we recommend you do before booking a disco, come and see us in action! Check out what other customers think on our feedback page and please feel free to ask us questions!

If you only book a Disco or Karaoke once, Don't be disappointed.

You will be amazed by us!
